Education

Kalamazoo College

Bachelor of Arts, 2024

Mathematics and Computer Science double major

GPA: 3.988

Recognitions: Honors in Mathematics (*summa cum laude*), Heyl Full Tuition Scholarship, Phi Beta Kappa

Relevant Projects:

Icosahedral Virus Transitions (Senior Thesis)

- Developed a multi-threaded, high-performance data analysis algorithm in Python to understand how certain viruses transform over time.
- Created comprehensive technical documentation for research mentors to continue research.
- Presented research findings to the Kalamazoo College Board of Trustees.
- Nominated speaker at the 2023 West Michigan Regional Undergraduate Science Research Conference with over 150 in attendance.

HornetHQ 2.0 Prototype

- Developed React-based prototype for course selection system with simulated SQL back-end.
- Led and collaborated an Agile team of 12+ using RESTful APIs and Git workflow.

Relevant Coursework:

Advanced Software Development (*Agile development, software testing, SDLC principles*)

Data Science, Machine Learning (*AI models, Python, scikit-learn, data analysis*)

Budapest Semesters In Mathematics, Hungarian Study Abroad

2022

- Advanced mathematics program that provides an opportunity for North American students to learn mathematics in the Hungarian tradition.
-

Experience

Member Service Representative - Advia Credit Union

2026 - Present

- Resolved member needs while building trust and delivering exceptional service in an underserved area of Kalamazoo.
- Innovated and implemented new ideas within the branch and within the whole company.
- Gained company wide awareness by shadowing and networking with IT support, infrastructure, and data analytics teams.

Teller - Advia Credit Union

2025 - 2026

- Troubleshoot financial and technical issues for 100+ credit union members on a weekly basis.
- Maintained strict procedural compliance while resolving time-sensitive customer issues.
- Communicated policy-related information clearly to non-technical customers.
- Exceeded sales goals by over 200% within the first 3 months of employment.

Webmaster - North American Guild of Change Ringers (Volunteer)

2025 - Present

- Manage and enhance the organization's website (www.nagcr.org), focusing on usability, accessibility, and mobile responsiveness.
 - Collaborate with leadership to publish timely updates, event announcements, and member communications.
 - Authored technical design documents outlining solution research, technology selection, implementation strategy, and security considerations.
-
