Education

Kalamazoo College

Bachelor of Arts, 2024

Mathematics and Computer Science double major

GPA: 3.988

Recognitions: Honors in Mathematics (*summa cum laude*), Heyl Full Tuition Scholarship, Phi Beta Kappa

Relevant Projects:

Icosahedral Virus Transitions (Senior Integrated Project Research)

- Brought on as an expert in mathematics and computer programming by Kalamazoo College faculty Dr. Stephen Oloo and Dr. David Wilson to support ongoing research.
- Completed data analysis research project by using Python to process large-scale biological datasets.
- Invited to present research findings to the Kalamazoo College Board of Trustees.
- Nominated speaker for the 2023 West Michigan Regional Undergraduate Science Research Conference at the Van Andel Institute in Grand Rapids.

HornetHQ 2.0 Prototype

- Developed React based prototype for course selection system with SQL back-end.
- Collaborated in Agile sprint cycles in a team of 12 to achieve development milestones.
- Presented a live demo to the faculty and staff of the college's technology department.

Relevant Coursework:

Advanced Software Development (*Agile development, software testing, SDLC principles*)

Data Science, Machine Learning (*Python, scikit-learn, data analysis, AI models*)

Budapest Semesters In Mathematics, Hungarian Study Abroad

2022

- Advanced mathematics program that provides an opportunity for North American students to learn mathematics in the Hungarian tradition.
-

Experience

Webmaster - North American Guild of Change Ringers (Volunteer)

2025 - Present

- Manage and enhance the organization's website (www.nagcr.org), focusing on usability, accessibility, and mobile responsiveness.
- Collaborate with leadership to publish timely updates and event announcements.
- Monitor and resolve reported user issues in a live environment.

Teller - Advia Credit Union

2025 - Present

- Troubleshoot financial and technical issues for 100+ credit union members on a weekly basis.
- Maintained strict procedural compliance while resolving time-sensitive customer issues.
- Communicated policy-related information clearly to non-technical customers.
- Exceeded teller goals by over 200% within the first 3 months of employment.

Teaching Assistant - Kalamazoo College Mathematics Department

2023 - 2024

- Created learning environments that encourage student's critical thinking and support their growth.
 - Conducted weekly independent office hours to guide students towards optimal solutions.
 - Delivered accurate and concise feedback to over 20 students, facilitating significant improvements.
-

Skills

Programming Languages: R, Python, Java, Javascript, C++, LaTeX, SQL

Operating Systems & Tools: Linux, MacOS, Windows, Microsoft Office, Google Suite

Software Development: SDLC, Agile, Version Control (Git/GitHub), Test-Driven Development (TDD)

Data Science & Analytics: scikit-learn, Machine Learning, Data Visualization

Community Involvement

Freelance Percussionist at Local Theatres

2024 - Present

- Recent performances include *Seussical* and *The Addams Family* at the Barn Theatre and *Little Shop of Horrors* at the Festival Playhouse (Kalamazoo College).

North American Guild of Change Ringers Member

2022 - Present

- Jeff Smith Young Ringer Award 2024
